"Serves the Heart of Southern Alberta's Wheat Belt"

Vol. 36, No. 3

VULCAN, ALBERTA, THURSDAY, SEPTEMBER 2, 1948

Subscription \$2.50 a year in advance

## Local Duck Season Open Oct. 2nd to Nov. 20th

Regulations released by the Minister of Mines and Resources, Ottawa, regarding migratory birds for the current year show that the northern and southern parts of the province will enjoy the earliest shooting season, and that shooting in the Calgary District, in which the Vulcan area is situated, will open October 2 and last until November 20.

The season for migratory birds (Wilson's Snipe, ducks, geese—other than Ross's goose—rails and coots) is as follows:

Northern district: September 11 to October 30.

Edmonton district: September 25 to November 13.

Calgary district: October 2 to November 20.

Southern district: September 11.

The Edmonton district of Alberta is defined as that part of the Province lying south of Edmonton and north of a line described as follows: Commencing at the point where the centre line of Highway 12 intersects the east boundary of Alberta; thence westerly along the said centre line of Highway 12 through Coronation and Stettler, to the point of intersection of the centre line of Highway No. 2 to its intersection with the centre line of Highway No. 11; thence westerly along the said centre line of Highway No. 11 to Brazeau; thence due west to the west boundary of Alberta.

The Calgary district of Alberta is defined as that part of the Province lying south of the Edmonton district and north of a line described as follows: Commencing at the point where the centre line of Highway No. 1 intersects the east boundary of Alberta; thence westerly along the said centre line of Highway No. 1 to the point of intersection of the centre line of Highway No. 1 with the centre line of Highway No. 3; thence westerly along the said centre line of Highway No. 3 through Lethbridge and Macleod to the intersection of the centre line of Highway No. 3 with the west boundary of Alberta.

The Southern district of Alberta is defined as that part of the Province lying south of the Calgary district.

### BAG LIMITS

In any day: Ducks, 8; Geese 5; Coots and Rails, 10.

In any open season: Ducks 50; Geese 15; Rails and Coots 80.

No one shall have in his possession at any one time more than 16 ducks or 10 geese.

### MUST PLUG REPEATERS

Forbidden is the use of an automatic (auto-loading) gun or a pump gun with a magazine that can carry more than two cartridges; a swivel or machine gun, or battery or rifle, or shotgun loaded with single bullet, or any gun larger than 10 gauge, or any weapon other than a gun or a bow and arrow; and the use of live birds as decoys, or of any aeroplane, power boat, sail boat, or night light, and shooting from any motor or wheeled vehicle, or a vehicle to which a draught animal is attached.

The shooting of migratory birds

## Showers Honor Recent Bride

Mrs. Lorne Sales, the former Miss Lillian Root, was the guest of honor on two occasions during the past week. On Wednesday evening last, some twenty girls were present when Miss Gladys Mainland, Miss Mary Douglass and Miss Rose Haga entertained. The honoured guest was seated under a canopy of pink and white streamers, flanked by bouquets of summer blooms.

"The Story of a Romance", with the guests providing the needed adjectives and read by Rose, proved highly amusing and brought forth gales of laughter. Lillian was then presented with a dainty coffee table, piled high with many beautifully wrapped gifts. Assisting her in opening her presents was her mother, Mrs. R. Root of Travers. Miss Elaine Palfry was asked to write down in a small Bride's Book, the gifts and their donors, as a keepsake for the guest of honor. The guests later autographed the same book. Lillian very suitably thanked her friends for their kindness and expressed her appreciation of the good wishes and gifts showered on her. A dainty lunch was served by the youthful hostesses assisted by Mrs. John Wolfe.

Some 25 guests gathered at the home of Mrs. Opal Drummond Monday evening, when Mrs. Drummond, Mrs. Glen Phillips, Mrs. George Fulton, Mrs. Russ Lawrence and Miss Margaret Hanson were joint hostesses, at a miscellaneous shower. The reception room was tastefully decorated with vases of gladioli, white pink and white bows formed an attractive table setting. Mrs. Fulton arranged and presented a contest, requiring the guest to guess the spices the homemaker has in her cupboard. After many "sniffing" efforts at trying to determine the contents of each tiny parcel, most of the ladies had a fine attack of sneezing. However the guessing also caused much merriment and Mrs. H. LaRoche was declared the winner of the contest.

Later Mrs. H. B. Ulrich led Lillian to a gaily trimmed table and on behalf of those assembled expressed the sincere good wishes of all for a long and happy married life, and asked that she accept the gifts stacked there. Assisting the guest of honor in opening the many beautifully wrapped parcels was her husband's mother, Mrs. A. Sales.

Lillian graciously thanked the hostesses and each present, for the many kind wishes expressed in the lovely and useful gifts. She extended to all an invitation to visit her and Lorne in their tiny home.

The serving of a delicious lunch by the hostesses brought the happy evening to a close.

earlier than one-half hour before sunrise or later than one-half hour after sunset is prohibited.

## Canada's High Commissioner to Australia Host

More than 400 guests attended the reception given by the Canadian high commissioner to Australia and Mrs. Kenneth Greene at the Hotel Canberra on Dominion Day. The guests included members of the federal cabinet, high ranking public servants, other notable Australians and members of the diplomatic corps. The picture shows Mr. Greene chatting with Dr. H. V. Evatt, Australian minister for external affairs.

## Vulcan Student Is Awarded Teacher Training Scholarship

Miss Betty Hammer has been notified that her application for one of the Alberta Department of Education Teacher Training Scholarships has been accepted.

This scholarship, given to outstanding students who wish to enter the teaching profession, is in the amount of \$200.00. Applicants who meet with the approval of the Faculty of Education are paid one-half of the scholarship at the end of October and the balance early in January, subject to favorable progress reports. The tuition fees for the one year course are also paid by the provincial government.

These teacher training scholarships were instituted by the Department of Education to encourage high school graduates to enter the teaching profession and thus help alleviate the present teacher shortage.

Miss Hammer has been one of the Vulcan High School's outstanding students.

## Flood Relief Fund Now \$415.00

A contribution of \$43.10 from the Women's Sunshine Club, the proceeds of the raffle of a quilt, makes the total of local donations to the British Columbia Flood Emergency Fund \$415.10.

Donations to this fund are being accepted at the local branch of the Canadian Bank of Commerce.

## Will Not Lower Red Bobs Grade

The Board of Grain Commissioners for Canada has announced that no action will be taken during the next two years at least to lower the grade on Red Bobs wheat.

However, the possibility remains that after August 1, 1951, Red Bobs will not be graded higher than Three Northern.

Red Bobs is the most popular wheat grown in the Vulcan district and in most of Alberta, with about one-third of the province's wheat acreage being seeded to this variety this year.

The Board of Grain Commissioners has stated that the quality of Red Bobs has deteriorated.

## Weather and Crops

Although Wednesday was slightly cloudy, good harvest weather has generally prevailed this week.

Crops have been slow in ripening, but this weekend will see swathing of spring wheat general throughout the district and harvest will be in full swing next week. Harvesting of rye and fall wheat is practically completed, with generally good yields.

## WHEN TO BUY FARM LAND

A prominent economist once said that of all the factors influencing the success or failure of a farmer, the biggest one was when he was born. He had in mind the farmer who succeeded largely because he got his land when prices were low and was able to pay for it during a period when farm income was rising.

Harold C. Larsen, of the United States Bureau of Agricultural Economics, states that farm land values in the United States now average as high as in 1920 when they reached their peak in the land boom following World War I. This should cause prospective farm buyers before they buy to take a look at the future net income as it relates to current land values.

In the past farm costs have tended to catch up with farm income during periods of inflation, and net incomes were reduced even though prices for farm commodities stayed high. Many farmers are already experiencing some difficulties from this sequence. When the downturn comes, costs are likely to drop more slowly than the prices of farm products.

## Wheat Pool Budget

Poor bleeding is the most common defect in dressed poultry.

The long-time average farm price for rye in Alberta from 1906 to 1947 inclusive was 77.8 cents per bushel.

## Will Train Large Group In Use of New Inhalator

### Fire Brigade Members, Swimming Instructors And Some Volunteers

The inhalator purchased jointly by the Town of Vulcan and the Lions Club has now been received and is on display this week in the window of Mitchell's Drug Store.

The next step is the training of a large number of persons in the use of the inhalator and in artificial respiration. Present plans are that this training will be given all members of the fire department, all those who completed the swimming and water-safety course recently conducted here by the Red Cross Society, and a certain number of volunteers. It is likely that this training will be given by the St. John's Ambulance Association.

The inhalator is a special safety device for the treatment of persons suffering from respiratory failure due to drowning, smoke, gas fumes or electric shock. Such devices are in use in all the cities and the larger mines and have proven their value and effectiveness in restoring normal breathing in persons who have been overcome as mentioned above.

It is used in conjunction with artificial respiration, supplying a mixture of 7% carbon dioxide for stimulation and 93% oxygen for ventilation of the respiratory system. This gaseous mixture is supplied according to the demands of the patient's lungs when manual artificial respiration is in progress—naturally and completely and with no danger of harmful pressure.

The unit is portable and very simple in operation, but is complete with all the necessary equipment for the treatment of more than one patient at a time or for the treatment of infants. During the summer months it will be kept at the swimming pool and for the balance of the year will be located at the fire hall.

## Next Monday Is Labor Day

Next Monday, September 6, is Labor Day and a Dominion holiday. Most places of business in Vulcan will be closed.

## Farmer Leaves Legacy to Church

Andrew Christoferson, a farmer of the Youngstown district, who died July 7 left a \$4,000 legacy to Mount Calvary Lutheran Church in Calgary, according to recent reports in the daily press.

Rev. A. F. Miller, pastor of the church, said that the legacy was a complete surprise, as Mr. Christoferson had never attended the church and did not know any of the congregation.

It is assumed that the farmer had heard the church's Sunday morning Lutheran Hour broadcast, for the will specified that the money was to be used to continue broadcasts of the Lutheran Hour or any other religious broadcasts the congregation saw fit to undertake.

## Nine Million In Liquor Profits

The Alberta government's liquor profit in the year ending March 31 was \$9,942,741.33, according to figures released by C. K. Huckvale, provincial auditor.

The auditor's financial report for the fiscal year reported gasoline and fuel oil taxes totalled \$7,657,915.18. Automobile and truck licences produced \$4,121,103.62.

Total revenue from all sources was \$54,178,322.31.

The previous year's statement showed total revenue as \$8,718,034 in the year ending 1947 with gasoline and fuel oil taxes producing \$5,403,921.46 and auto and truck licences \$3,549,821.56.

An interim report for the first three months of the fiscal year ending June 30 shows revenues up \$1,786,683.20 over the same period last year. Liquor revenue is increased by \$163,597.18 for the period.

## First Delivery Spring Wheat

The first report of spring wheat being delivered in Vulcan this fall came from Mike Miller, grain buyer at the P. & H. elevator.

A load received last Friday from Dan Ross of the Reid Hill district weighed 64 lbs. to the bushel and graded No. 1 Northern. The yield was estimated to be over 30 bushels to the acre.

## Evangelist Will Revisit Vulcan

Next Sunday, Sept. 15th, the Church of Christ is to have the pleasure of a visit from the outstanding preacher-evangelist, John H. Wells.

It is twenty-three years since Mr. Wells was in Vulcan at which time he held an evangelistic campaign in the skating rink. His strong preaching in the regular meetings and in front of the hotel on main street brought great crowds and enthusiastic response. As a result the Church of Christ was commenced in Vulcan with forty-six charter members.

Since that time Mr. Wells has held many successful evangelistic campaigns as well as ministering to one of California's churches for fourteen years.

This summer Mr. Wells is touring the U.S. and Canada with a party of five singers and musicians, and has arranged to stop off at Vulcan for one service only which is to be held next Sunday morning at eleven o'clock. A fellowship dinner is to follow the service. The public are invited and it is expected this will be one of the largest attended services of the year.

## Kirkcaldy W.I. Thanked For Parcel to England

Mrs. Brown MacDonald was hostess on Thursday, August 26th, when she entertained the members of the Kirkcaldy Women's Institute at her home.

The meeting opened with the president, Mrs. Bert Maisey in the chair, with seventeen members and five visitors present. The roll call was answered with "Patriotic Verse."

Business dealt with included a discussion on the district W. I. cook book, and a nutrition course to be held at Kirkcaldy after harvest.

The financial statement was read by Mrs. J. Main, and Mrs. W. Anderson, read a letter from an Institute member in England, thanking the members for the parcel sent. They had a supper with contents of the parcel for all twenty-four members, and the tea was very much enjoyed. Those who were unable to be there were sent home their share.

At the close of the business meeting a handicraft display consisting of many beautiful pieces of fancy work, crochet, knitted, and embroidered, also sewing donated by the members greatly added to the contribution of the program. Mrs. R. Flitten and Mrs. D. Galbraith were the conyers responsible for such a lovely display.

A delicious lunch was served by the hostess, Mrs. B. MacDonald.

The tea draw, divided into three, which were beautiful bouquets of flowers from Mrs. MacDonald's garden; were won by Mrs. H. Todd, Mrs. Irma Middleton, and Mrs. Blanche Urquhart. The September meeting will take place at the home of Mrs. W. Todd.

The MacDonalds were praised as their guests viewed the spacious grounds surrounding their home. Worthy of mention are the rock gardens and rock walls, many varieties of flowers and shrubs, including a fence of gladiolas and dahlias, a grape arbor, and a lily pond with goldfish in it, as well as as well kept lawns and tennis court. Mrs. B. MacDonald is noted for her constant changing of landscaping in flower beds so a real treat is always in store for visitors and friends who may pay them a visit during the summer months.

## YIELD OF WHEAT PER ACRE OVER THE PRAIRIE PROVINCES 1948

COMPILED AND CHARTED BY  
SEARLE GRAIN COMPANY LIMITED

The map printed above shows the yields of wheat in the various districts in each of the prairie provinces. An extraordinary picture presents itself this year, that has seldom occurred before, which is that the poor crop area extends

north and south, instead of east and west and confined to the southern half of the areas as is usual in poor crop years. The poor condition of the western part of Saskatchewan and eastern part of Alberta is this year caused simply

from the fact that the usual good rains in May and June did not occur in those areas. The very good crops in Manitoba and eastern Saskatchewan and in western Alberta is the result of the better than normal rains from July 12 to date.

### DIRECTIONAL SIGNS NEEDED

With major repair work on the Macleod Trail now in progress, many tourists are being routed from Lethbridge to High River via Vulcan, and this brings up the matter of directional signs within the town. At present there is not a single sign to indicate to the stranger which road to take or the distance to any of the neighboring towns.

The necessary directional signs could be erected without too much expense and, if not done by the Town, this service could easily be taken care of by the Board of Trade or one of our many other organizations.

It has also been suggested that if the detour sign near the top of Thigh Hill gave the information that the detour was five miles west and then four miles north into Vulcan it would save a lot of doubt in the minds of tourists, who invariably stop at nearby farmhouses and enquire if they are still on the right road. This, of course is a matter for the provincial department of public works, but it would certainly be appreciated by the many tourists now travelling this road.

### WITH THE District Agriculturist PETER JAMIESON

#### SOME INFORMATION ON D.D.T.

D.D.T. is a chemical that was discovered during the war and has now become a commercial product that has many important uses. Some information has come to this office on the use of D.D.T. and we publish it in this column hoping that the material will be useful to our readers and may clarify some of the points on which questions are asked.

Many hundreds of enquiries are still being received asking if DDT is safe to use in homes, on livestock, on crops. People do not realize that DDT was safely used in dust form on most of our troops during the past war to eliminate lice and fleas. DDT may be safely used on man, animals, crops and in our homes providing the proper formulation is used and the direction on the label followed carefully.

#### DDT IN HOME:

DDT should be sprayed around and on doors, screens and window openings. A 5% solution is most effective and the surface should be sprayed until just dampened. Verandas and porches should be sprayed paying particular attention to areas where flies rest. Garbage cans and other receptacles should be sprayed weekly. Walls, ceilings, floor and door of clothes closets should be sprayed to prevent moth damage. Remove the clothes and air them while the DDT solution dries on the walls. Make sure there are no moths already in the clothes and return the articles to the closet. Chests and drawers where woolen articles of clothing are stored should be thoroughly treated with the 5% DDT solution. The woollens themselves may be lightly treated to insure safety from moth damage. Rugs and chertfields may be sprayed. Make sure the spray reaches all the folds and crevices behind and under cushion. The small brown beetle sometimes found in cupboards where food is stored can be quickly and safely eliminated with 5% DDT solution. Remove the food packages and dampen the sides and shelf of the cupboard with a spray. Allow solution to dry and replace the package being sure to remove and destroy all packages infested with the insect. A small sprayer and a bottle of 5% DDT solution should be kept on hand at all times to fight insects in the home. A word of caution—keep DDT out of reach of small children since it is poisonous if taken internally. The 5% solution should be washed off the skin with soap and water is accidentally spilled during spraying. The DDT when dry is harmless but the solvent used to keep the DDT in solution is taken in through skin and with it goes the DDT.

#### DDT ON THE FARM:

Many are the benefits to the Canadian Farmer from DDT. In many cases an expenditure of only 5 cents will produce 50 lbs. of additional beef. 50% Wettable DDT Powder used at the rate of

4 lbs. to 80 gallons of water will spray from 100 to 200 head of cattle. The first spray will have effectiveness of about 2 weeks, the second spray 3 weeks; third spray 4 weeks; fourth spray remainder of fly season. Where hand sprayers are used the rate should be increased to 8 lbs. to 50% Wettable DDT Powder to 80 gallons of water. About 1 quart should be applied to the back and 1 pint to the underside of each animal.

Milk from dairy herds can be increased from 5 to 20 percent when DDT is used to control flies in the manner outlined above. Anyone who has experienced the sight of a whole herd of cattle standing with stationary tails after spraying will realize what this means to the poor animals.

Spraying barns, sheds, chicken and hog houses clears buildings from flies, fleas, mosquitoes, grain beetles and similar insects for comparatively long periods.

In experimental work and in actual field practice, D.D.T. has proved so effective against insects attacking potatoes that growers are advised to use this insecticide for treating their potato crop. Two pounds of 50% DDT Wettable Powder to 100 gallons or 1 qt. of 25% DDT Emulsion concentrate to 75 gallons of water is the recommended dosage. DDT may be used safely on many other garden and field crops such as corn, alfalfa, peas, onions, beans, cabbage, carrots and tomatoes and on fruit crops such as apples, pears, peaches, grapes, raspberries, etc.

#### EFFICIENT COMBINE OPERATION PREVENTS LOSS

E. B. Martin, Agricultural Department of Agriculture, says that heavy losses during harvest often occur from inefficient use of the combine.

Mr. Martin advises that there are a number of places where grain may be lost, including the cutter bar, cylinder, straw rack and the shoe. The cylinder loss is usually the lowest, but the adjustment at the cylinder has a decided effect on the losses at the rack and shoe. In order to reduce total machine loss it is desirable that the losses at each of these places be balanced as much as possible.

Loss at the cutter bar is usually one of the highest. It includes all shelled grain and heads that have been thrown to the ground by an improperly adjusted reel. Next in extent is the rack loss, and this is important because so many adjustments of the other areas have a distinct bearing on the extent of the rack loss. Overloading means higher rack losses. A high shoe loss is usually associated with a high rack loss.

A combine will handle only a certain volume of material efficiently and the limit of capacity will vary with different machines and the condition of the crop. In crops of heavy or lodged straw it is a good idea to reduce the rate of travel if possible, to avoid overloading the straw rack.

One of Newfoundland's two pulp and paper companies cut 500,000 cords of wood in the past twelve months, believed to be a record for any single mill company in the world.

### POLIOMYELITIS

(Editorial in Health Magazine)

The recent meeting of the first International Poliomyelitis Conference in New York calls attention to the fact that we still know little about infantile paralysis. Insofar as its prevention is concerned again the importance of observing ordinary public health precautions—chlorinated water, pasturized milk and anti-fly measures—should be emphasized because water, milk and flies are all possible means whereby the disease may be spread.

The early stage of polio is often overlooked. The symptoms are merely slight fever and malaise—indistinguishable from those of a cold or upset stomach. In the second stage there may be fever, nausea and vomiting, with stiff neck and stiffness of the muscles of arms and legs. In the third stage paralysis makes the diagnosis easy.

Dr. John A. Anderson, head of the Department of Paediatrics, University of Utah School of Medicine, stated in the course of the Conference, that children and youths under twenty should be confined to bed during an epidemic. Dr. Anderson advised keeping the child in bed for at least one day after the fever has subsided and keeping him on a normal diet rather than instituting excessive activity, fatigue, chilling and overheating for at least three weeks following the period of fever.

Scientists are continually at work seeking a specific preventive for this malady. Until they find it common sense precautions are essential. As a matter of fact, they are the only means of prevention now available.

Speakers emphasized the fact that in these cases, after headache and sore throat have begun, extreme physical activity is almost suicidal. The degree and extent of paralysis corresponds almost exactly to the amount of activity.

Members of the panel agreed that swimming pools should be closed during an epidemic.

## Small Water Developments

Dominion Experimental Station  
Lethbridge, Alberta  
(Weekly Letter)

Now is the time, the Agricultural Editor of the Lethbridge Herald points out, for the farmer and rancher to do some planning for the future. Farm debts have been largely wiped out and it should be possible, this Editor suggests, to plan for better farm living because "the farm family deserves a home and surroundings as good as the best."

Now also is the time to make plans for some of the things that help to make farming on the prairies more secure. One of the most important of these jobs is the development of small projects including household use, watering live stock, irrigating the garden and lawn, and growing feed.

Moisture conditions throughout much of the area served by the Lethbridge Experimental Station have been exceptionally favorable this season and for a number of years in fact. As a result, the urgent need for water conservation has not been so widespread as it was during the prolonged drought of the thirties. During the years of heavier rainfall the tendency has been to cap up on this work whereas such favorable periods, when farmers are generally better off financially, usually afford the best opportunity for such developments.

Small projects, whether dugouts, stock watering dams, or some type of irrigation scheme, which are now in readiness to catch surface runoff when it occurs, will provide water when the need is likely to be the most urgent, whereas such inconvenience may result, and losses may occur where construction of a new project is too long delayed or an existing project is not kept in satisfactory state of repair.

The feasibility of storing runoff water on the average prairie farm is well demonstrated by the 36,000 or more of small projects constructed under P.F.R.A. program.

These widely distributed projects are a definite contribution toward better living and greater security on the prairie farm. Where water is available, homes may be modernized, a sprinkler irrigation system installed to irrigate the garden and lawn where reserves may be built up and maintained.

Farmers and ranchers planning any new water developments should write to the Prairie Farm Rehabilitation Administration, Regina, Sask., regarding engineering service and financial assistance. Those planning the development of an existing project are invited to write to the Dominion Experimental Station at Lethbridge.

### PEELING PAINT

The old, but still quite common, idea that paint is of poor quality if it peels off the surface to which it has been applied usually just isn't so. On the contrary, an oil paint which does not peel when

SWATHER—2-YEAR-OLD ground-driven Case Swather on rubber, 12 ft., brand new. Eaton Push Swathers on rubber, 14 ft. Second-hand No. 15 8 ft. P.T.O. Massey-Harris Combine. W. G. Hitchner & Son, Phone 175, High River. 3-1c

It ought to peel isn't worth using in the first place.

Look at it this way. The main cause of peeling can be traced to moisture in the object being painted. Eventually, one way or another, that moisture has to come out. To escape it must either pass through the paint film, or it must push the paint film out with it, causing peeling.

Paint which doesn't peel under conditions like that is simply paint which is so poor that the moisture passes clear through it—and if moisture can pass through the paint film on the way out, it can pass equally freely through the same film on the way in. Paint which allows moisture to pass through isn't doing the job for which it was intended.

It all boils down to simple rule of painting. Make sure the object being painted is dry all the way through before applying the paint—and then make sure there is no way that new moisture can get into the object through any part that isn't painted.

1930 1 1/2 TON CHEVROLET Truck. Also five young pigs. Phone 1816, Earl Deal, Vulcan. 3-2c

FOR SALE—MODEL 3 I.H.C. 15 ft. Combine with pickup. Ready for the field. Write P. O. Box 9 or Phone 1303 Vulcan. 3-6p

## English Journey

BY WALTER R. LEGGE

### ARTICLE No. 6

Within a short bus ride journey from Amersham are two places that should be on the "must see" list of every visitor to England: Windsor Castle and Hampton Court Palace.

One whole day at least should be spent at Windsor for there is so much to see. The town itself is an interesting old place but the Castle is worth the whole journey to England. The usual pictures of Windsor Castle give little indication of the real size and grandeur of the many buildings.

It is known that there was a castle here in the days of William II (1087 to 1100) but the present castle was started by Edward III (1327-1377) and succeeding kings made various additions until about 1820 since which time there have been no changes.

As everyone knows, the Royal family spend much of their time at Windsor Castle but when they are absent, visitors are shown through the state apartments by expert guides who lecture in each room. These are not the private apartments of the Royal family, which are in another part of the Castle.

It is impossible in the space available to adequately describe these state apartments but the following is a brief summary in the order visited.

The China Museum contains a valuable collection of services of Worcester, Wedgwood, Minton, Copeland etc. made for various Kings.

The Grand staircase has a suit of armour made for Henry VIII, colours of many regiments, arms and armour.

King Charles II Dining Room has a ceiling painted by Verrio of a Banquet of the Gods; Grindly Gibbons carvings, and priceless pictures, furniture and tapestries.

The Rubens Room is so called because of the number of paintings by that artist on the walls. It is used as a principal apartment during State visits. This room also has valuable furniture and porcelain.

The State Bedroom has a State Bedstead made 1774-1793 and the walls are covered with green silk damask. Here also are priceless paintings and furniture.

The King's Closet and the Queen's Closet are two more large rooms with period furniture and magnificent paintings.

The Picture Gallery, used as a Writing Room during state visits is known as the Picture Gallery on account of the number of masterpieces of great value. There are over 40 paintings by such artists as Holbein, Rubens, Rembrandt, etc.

The Van Dyck Room is so called because most of the paintings are by that artist and there are many fine pieces of furniture.

The Queen's Audience Chamber has another fine ceiling painting by Verrio and three magnificent

panel tapestries of Gobelin.

The Queen's Presence Chamber also has a ceiling painting by Verrio and wonderful furniture and pictures.

The Guard Chamber has an armour clad equestrian figure, a fine collection of historical swords and bantons, as well as busts, tapestries, pictures and furniture.

St. George's Hall, built by Edward III to hold the banquets of the Knights of the Garter, is 185 feet long and 30 feet wide. The decorations include the shields of Arms of all knights of the Garter from the foundation of the Order in 1344 to the present day, and busts of about 24 kings and members of the Royal Family.

The Grand Reception Room has six huge Gobelin tapestries.

The Throne Room is where many Royal Investitures of the Order of the Garter has taken place. The pictures are of Sovereigns in their Garter Robes.

The Ante Throne Room has five paintings by Zuccarelli, busts and Louis XV tables.

The Waterloo Chamber has a mahogany table capable of seating 150 persons. The walls are covered with Heraldic Badges and over forty paintings of celebrities.

The last room is the Grand Vestibule, filled with cases of souvenirs of historical events, and other objects, forming a museum of great interest.

It would take days to really study the apartments but the visitors must keep up with the guide and party. It was noticeable that the guide never used superlatives such as "the finest in the world" although there is no doubt that many items could be so classed. There were over 5000 visitors to the apartments on the day we were there.

The Queen's Doll's House is another section open to the public but we did not have time enough to visit it.

Equally interesting is the St. George's Chapel which is one of the most beautiful and interesting buildings in England.

Here again an expert guide conducts parties of visitors and points out each item of interest and here again, hours could be spent studying the details.

St. George's Chapel is where many kings and queens are buried including Henry VIII and his Queen Jane Seymour; Edward VII, Queen Alexandra; George III, George IV, Henry VI and many others.

Our guide showed his sense of dramatics as he told of the body of Charles the First being smuggled past sentries into the chapel for burial at the dead of night. For a long time it was doubted if it really was the body of the king and if he really was beheaded. Years later the body was exhumed and found to be really the body of Charles the First and the head was separate from the body.

We were fortunate in seeing the extensive and massive old alter vessels which are not usually on view, but had not been removed after a special service that morning.

Lovers of the fine architecture are richly rewarded for a visit to St. George's Chapel for although it is not as old as many other Church buildings it is far richer and the stone vaulting is glorious.

(Continued on Back Page)

## Re Home Assurance Company of Canada

Policy Holders of HOME ASSURANCE COMPANY OF CANADA are hereby advised that on Monday the 2nd day of August at the hour of 11:30 o'clock in the forenoon the presiding Judge in Supreme Court Chambers, Calgary, Alberta, granted an Order for the administration of the deposit of HOME ASSURANCE COMPANY OF CANADA made with the Provincial Secretary for the Province of Alberta, pursuant to the Alberta Insurance Act and appointed A. G. Burton, resident partner of Peat, Marwick, Mitchell & Company Life Building, Calgary, as Receiver.

Policy Holders are further hereby notified that it is considered as a matter of law that policies of HOME ASSURANCE COMPANY OF CANADA are ineffective after the making of the aforesaid Order and that no persons are entitled to share in the proceeds of the deposit with respect to claims for losses occurring subsequent to the time the said Order was granted.

All Policy Holders of HOME ASSURANCE COMPANY OF CANADA are further notified to file with A. G. Burton, 41 Canada Life Building, Calgary, Alberta, by the 1st day of October, A. D. 1948, particulars of all outstanding contracts of, and claims against, HOME ASSURANCE COMPANY OF CANADA, duly verified by Statutory Declaration.

A. G. BURTON  
Receiver.

## Seeding Crested Wheat Grass

Dominion Experimental Station  
Weekly Letter

Crested wheatgrass is probably the most dependable cultivative forage crop which can be grown in the drier areas of Alberta. It is very drought resistant, starts growth early in the spring, and possesses the ability to "green-up" after fall rains. All in all, it is an excellent grass for either hay or pasture purposes, and under favorable conditions will produce a good seed crop.

Extensive trials conducted throughout southern Alberta have indicated that the best time to seed crested wheatgrass is from August 15 to September 15. When seeding is done at this time the grass has a chance to make some growth before winter. If grasshoppers are prevalent, however, it is best to delay seeding until just before freeze-up so that no growth occurs until early the following spring. Successful stands have been obtained at both dates.

The rate of seeding will depend somewhat on the use to be made of the field. If for pasture, a rate of from eight to ten pounds per acre is used. This results in a heavier stand which produces fewer seed stems and is more readily eaten by stock. For hay production, a rate of six pounds per acre results in highest yields. Growth is usually slightly coarser than when higher rates are used, but good quality hay can be obtained from fields sown at these lighter rates.

Shallow seeding is very important when crested wheatgrass is being drilled into a field. From one-half to three-quarters of an inch is the optimum depth of seeding. For this reason a firm seed bed is a necessity and in addition

it may be necessary to take most of the pressure off the drill runs. Because the young seeding of crested wheatgrass requires shade to produce its best growth it is recommended that seeding be done directly into stands of annual weeds or stubble without previous cultivation.

## "Here we are again"

## 7th CONSECUTIVE PATRONAGE DIVIDEND TO "PIONEER" CUSTOMERS

We are paying a patronage dividend on all grains delivered to our elevators from August 1st, 1947, to July 31st, 1948. We will later announce when to call at the "Pioneer" elevator to receive this payment.

This Patronage Dividend Payment will be in cash—not promises or certificates.

We thank all those who entrusted their business to us during the past year.

We have paid patronage dividends annually since 1941

## THE VULCAN ADVOCATE

"Advertising is the Life Blood of Business"

A waterfall on the Hamilton River in Labrador, about 150 miles north of the Gulf of St. Lawrence, is almost twice as high as Niagara Falls. Its drop is a stupendous 316 feet.

### A WONDERFUL NEW ARTIFICIAL HAND:

A remarkable new artificial hand has been invented by Mr. J. H. Simpson, a young Irish architect, and developed by Mr. A. W. Shaw, managing director of an artificial limb firm in London, England. Quite apart from looking exceedingly lifelike the hand functions with all the dexterity of its human counter-part. Made of wood and metal, it has small rubber pads set on the inside of fingers and thumb; that the hand may grip firmly, and a larger pad of rubber-sponge placed on the palm. The controls are connected to a shoulder brace which enables the wearer, by an almost imperceptible shrug of his shoulders or back to grasp any object he wants, be it a spade or a magazine, a glass tumbler or a tennis ball.

"Of the original inhabitants (of Newfoundland), a sturdy, brown race of peaceful and clever little people, called Beothucks, perhaps the less said the better. They were wilfully destroyed, being hunted down like wild animals."—Encyclopedia Britannica.

### WITH THE District Agriculturist

PETER JAMIESON

#### CATTLE SHIPMENTS TO THE UNITED STATES:

We have received from headquarters a circular telling of the requirements by The Health of Animals Division for cattle being shipped from Canada to United States. As we figured this would be of interest to many of our cattlemen, we publish it herewith just as we received it.

#### SLAUGHTER CATTLE:

Cattle offered for importation from Canada shall be accompanied by an Official Veterinarian's certificate showing he has inspected the said cattle and found them free from an evidence of communicable diseases and that as far as he has been able to determine, they have not been exposed to any such disease during the preceding sixty (60) days. (Form PHA-93).

Cattle imported from Canada for slaughter shall be consigned from port of entry to some recognized slaughtering centre and there slaughtered within two (2) weeks from date of entry, or upon special permission obtained from the Chief of the Bureau of Animal Industry, may be reconsigned to other points and there slaughtered within the aforesaid period.

#### RANGE CATTLE:

Range cattle entering the United States for purposes other than slaughter must be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing they have been tuberculin tested with negative results within the preceding thirty (30) days.

Cattle six (6) months old or more offered for importation into the United States for purposes other than slaughter shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing they have been tested for brucellosis (Bang's Disease) with negative results within thirty (30) days of their exportation.

The United States Bureau of Animal Industry will not permit the transportation by motor truck into the United States of cattle intended for slaughter unless such cattle are accompanied by tuberculin and blood test certificates as required for Canadian cattle entering the United States for breeding or dairy purposes.

Further, the United States Bureau of Animal Industry requires that all cattle imported into that country shall be inspected by a United States Bureau of Animal Industry veterinarian at the port of entry. Any cattle, upon inspection at port of entry showing evidence of physical defects, abnormalities or indications of disease, may be rejected.

Calves of any age must be tested with tuberculin with negative results if entering the United States for purpose other than slaughter.

#### GRANUM GRAIN CLUB FIELD DAY

On Friday the 20th the members of the Granum Grain Club met at Granum and went on a tour round a number of the members plots. The route was planned by a committee of the boys themselves and gave the members a good picture of how the crops in the district were growing and ripening.

Mr. W. Wangler, Field Man for the Wheat Pool in Southern Alberta, and the District Agriculturist accompanied the boys. At the plots the boys got instruction in identifying weeds and varieties of grain. The variety of wheat grown by the Granum Club is Thatcher. During the tour we were impressed by the purity of the grain in the boys' plots very few, foreign heads were noticed.

## Champion and District

Mr. and Mrs. T. Fleetwood of Trail, B.C. are visiting at the home of the former's brother and sister-in-law, Mr. and Mrs. Alf. Fleetwood.

Mr. and Mrs. D. Greenlee had as their guest for several days the former's sister Mrs. V. Vaughn of Calgary.

Mrs. Oscar Sletto is a patient in the St. Michael's Hospital, Lethbridge.

Mrs. H. Morgan of Barons was a visitor at the home of Mr. and Mrs. W. Greenlee for several days.

Mrs. L. Eaton and sons, Jackie and Gary of Calgary and Mrs. A. Sundquist and daughter, Myrna, of Staveland visited for several days at the home of their sister, Mrs. G. Racher and Mr. Racher.

Mrs. Walter Smith and daughter, Bonnie, are visiting in Winifred at the home of the former's father, Mr. Marion, who is seriously ill.

Mr. and Mrs. Don Bond and sons of Lethbridge, and Mrs. J. Walker and son Jimmy of Nanton, were recent visitors at the home of their father, Mr. Ralph Bond.

Recent visitors at the homes of Mr. and Mrs. A. C. Little and Mr. and Mrs. F. L. Little have been Mr. and Mrs. A. Johnson, Mr. Ed. Johnson, Mr. and Mrs. R. Houth and Mr. and Mrs. A. Graetz, all of River Falls and Ellsworth, Wisconsin.

Mrs. Virgil Stout visited in Lethbridge for several days at the home of her parents, Mr. and Mrs. A. James.

Mrs. L. Schafer was a weekend visitor in Calgary.

Mr. and Mrs. D. W. Greenlee accompanied by Mrs. C. G. Miller and daughter Frances, visited in Calgary for two days last week.

Mr. and Mrs. J. Long and family visited in Calgary for several days last week.

Mr. and Mrs. J. M. Pharis of Calgary are visiting at the home of their son-in-law and daughter, Mr. and Mrs. A. Orcutt.

Mr. and Mrs. Art. Ulrich and children and Mr. and Mrs. Cliff Brown were weekend visitors at Waterton Lakes.

Mr. and Mrs. Douglas Dow entertained at a family dinner party on Sunday, August 29, in honor of the latter's father, Mr. P. Gatenby's birthday.

Mr. J. Elyshyn of Lethbridge was a visitor in town last week. Mr. and Mrs. W. P. Ralsbeck and Dougie were Sunday visitors at Taber at the home of Mrs. E. Ralsbeck, Sr.

#### sign heads were noticed.

At the farm of Mr. Dersch we saw plots of Redman and Saunders wheat, and Garry Oats. On the whole, the plots visited were very good but late due to the unseasonable weather this spring.

#### \$80,000 for Inventors of Flail Tanks:

Ten men—five of them South Africans—will receive a total of \$20,000 (\$80,000) free of tax for the invention of the flail tank which was used during the war for clearing minefields. Granting of this sum has just been recommended by the Royal Commission on Awards.

#### Cheese for Britain

The British Government has purchased 28 million pounds of cheddar cheese, including some processed, through private trade channels in the United States. Delivery is to take place between July and September, 1948, and the deal will be financed through the European Recovery Program.

Mr. and Mrs. George Wright have as their guest for a few weeks, the latter's son Mr. R. McGrall of Hawthorne, California.

Mr. and Mrs. W. Diemert of Calgary are visiting at the home of the former's mother, Mrs. A. Diemert.

Mr. and Mrs. F. Parhink of Calgary were business visitors in town last week.

Miss Gloria Cemelini of Lethbridge was a recent guest at the home of Mrs. L. Latiff.

Mr. and Mrs. Oscar Hagg have had as their guests, Mr. and Mrs. Tom Sletto of Staveland.

Mrs. E. Fraser was hostess at an apron shower at the home of Mrs. L. Latiff on Saturday night in honor of Mrs. R. Phelps who is leaving shortly to reside in Seattle. Dainty refreshments were served by the hostess, who was assisted in serving, by Mrs. L. Latiff.

Mrs. C. Collison of Ensign was a recent visitor at the home of her parents, Mr. and Mrs. Pat Larkins. Mr. Virgil Stout was a business visitor at Nobleford last week.

Mr. Sam Ulrich of Calgary was a visitor in town on Sunday.

Mrs. R. Phelps was a visitor in Calgary at the home of her brother and sister-in-law, Mr. and Mrs. Alex Latiff last week.

Mr. and Mrs. C. McLean left on a two weeks holiday to be spent at the home of their daughter, Mrs. Morrissey, and Mr. Morrissey at Eckville, Alta.

Mrs. W. P. Ralsbeck and son Dougie were recent Lethbridge visitors.

Mr. P. Bouzyan and Mr. Larry Hagg left on a motor trip for Seattle. They were accompanied by the former's niece, Mrs. R. Phelps, who left for her home in Seattle, after spending the past few weeks with her mother, Mrs. L. Latiff.

In the first game of the best two out of three semi-finals played on Sunday, August 29th, Champion defeated Vulcan by a 12 to 2 score.

Mr. and Mrs. C. Matlock were recent guests at the home of their son and daughter-in-law, Mr. and Mrs. J. Matlock.

Mr. and Mrs. J. Buchan and family left on a holiday to be spent in Calgary, Okotoks and Pincher Creek.

Mr. and Mrs. Glen Clever and Robert Black of Sherman Oaks, Calif., have arrived to look after farming interests here.

The Champion baseball Club journeyed to Picture Butte where they split 8-0 and 3-4 with Picture Butte Royals in a doubleheader exhibition games. The wind was so strong that time was called several times by the umpire.

#### J. F. HARDISTY

Friends will be sorry to hear of the death on Monday, Aug. 30th, in Spokane, Wash., of J. F. Hardisty, age 80, well known pioneer of the Champion district. Coming here in 1905 from Palouse, Wash., he farmed here until leaving 22 years ago to make his home in Spokane, Wash.

He leaves to mourn his loss, his wife, Kate, in Spokane, Wash., and one son, Ralph in Sebastopol, California.

IMPROVE CAR SERVICE: A number of promotions in the important transportation department of the Canadian Pacific Railway, designed to give faster and more efficient service to the public, have been announced. Left to right above are E. G. O'Brien, of Montreal, who takes over the new post of chief of car service; H. Chester, Winnipeg, and V. G. Smart, Toronto, both of whom become assistants to the general superintendent of transportation; P. W. Raines, Toronto, who will be the first superintendent of safety and train rules; and F. E. Howse,

Montreal, who will be the first supervisor of station service. All of them will take their offices in Montreal effective September 1 and report to R. E. Taylor, general superintendent of transportation. Mr. O'Brien, assistant general superintendent of transportation at Montreal for the past six years, has been with the C.P.R. since 1901; Mr. Chester, inspector of transportation for the prairie and Pacific regions since 1944, joined the company in 1916; Mr. Smart, who last year took over the post of special representative,

eastern region, has been 31 years' C.P.R. service; Mr. Raines, for the past five years rules instructor for the eastern region, has been with the railway since 1912, and Mr. Howse has been inspector, transportation department, since March of 1947 and with the road since 1917. Their jurisdiction will be system-wide in the important department known as "the heart of the railway" which sees to it that the Canadian Pacific's 1,800 locomotives, 75,000 freight cars and 2,700 passenger cars are at the right place at the right time.

### RED CROSS

Mr. and Mrs. Elmer Plourd were Sunday guests at the home of Mr. and Mrs. Paul Plourd of Carman-gay.

Mr. and Mrs. Plourd and Mr. and Mrs. Lloyd Richardson accompanied by Mrs. Wilton of Ontario motored to Carleton Place on Monday for a fishing trip and picnic. Well folks, that big one that got away from Elmer a few weeks back is still there. It got away with Isobel's fishing tackle this time.

Miss Ida Buehler of Champion is visiting with her sister, Mrs. Vic Foulton.

Mr. D. C. Sullivan of Olds was a guest at the home of Mr. and Mrs. Andy Knive on Thursday.

Mr. and Mrs. Norman Love and family spent last week at Radium and report a wonderful time.

Sunday guests at the home of Mr. and Mrs. Norman Love were Mr. and Mrs. Chas. Steins of Calgary, Mrs. Chin and family of Oregon, Miss Verna Becker of Weyburn, Sask., Mrs. Steir of Blackie, Mr. and Mrs. Ed. Love and family of Turner Valley, Miss Effie and Mr. Archie Van Dellen and Mrs. Chapman of Vulcan.

Mr. and Mrs. Alvin Fulton were High River visitors on Friday.

Mr. and Mrs. George Fulton, accompanied by Miss Margaret Hanson and Mrs. Opal Drummond of Vulcan, were Sunday guests at the home of Mr. and Mrs. Howard Journey of Strathmore.

Friends of Norman Jacobson will be sorry to hear that he is unable to be around owing to injuries received while lifting one day last week. We wish him a speedy recovery.

### BERRYWATER

Mrs. Sharp, Sr. of Claresholm is at present a guest at the home of her son, Bill Sharp and Mrs. Sharp.

Mr. and Mrs. Henry and family of Majorville were Sunday guests at the Sharp home.

Mr. L. A. Douglass of Bowness accompanied by his daughter, Mrs. Martin King of Calgary were weekend visitors with relatives in the district.

Mr. D. B. Smith and daughter, Betty motored to Calgary Thursday last and were accompanied home by Mrs. Smith, who has been convalescing at the L. A. Douglass home.

Miss Isobel Turnbull of New Westminster, who had been visiting with friends and relatives in the district started her journey home by car on Tuesday.

Mr. and N. K. Budd were business visitors to High River on Saturday.

Miss Marjorie Love has returned to Calgary, to resume her training at the General Hospital after a three week holiday spent at her home here.

Mr. and Mrs. R. Adam and Norma were Sunday guests at the Harold Northcott home at Milo.

Mr. Bob Loose accompanied by Mrs. K. Doeling and Orville Mix motored to Edmonton on Monday, where Mrs. Doeling will resume her duties with the Department of Education. Orville has accepted a teaching position on the staff of an Edmonton school for the coming term.

(Held Over From Last Week)

Friends of Miss Mary Douglass will be interested to learn she has recently accepted a position with the Vulcan branch of the Canadian Bank of Commerce.

Sunday guests at the R. Adams home were Mr. and Mrs. Andy Knive.

Mr. and Mrs. Roy McIntyre were Lethbridge visitors over the weekend.

Mr. and Mrs. L. Healy and family spent Sunday at the Clarence Mote home at Nanton.

Mrs. Kathleen Doeling has returned from a bus tour in the U.S. A successful monthly U.F.W.A. meeting was held at the home of Mrs. N. K. Budd Wednesday, August 18th, with 15 members and several visitors present. The meeting opened with the singing of a favorite hymn. Considerable business was dealt with including arrangements for a group shipment of wool to Fairfields for blankets.

Mrs. W. Oldfield headed this committee. Roll call was answered with "Canning Hints", which brought forth much helpful information. Mrs. Sims, delegate to the recent Farm Women's Rest week, gave a very comprehensive report of her stay at Olds. The meeting concluded with a delicious lunch, served by the hostess.

Mr. and Mrs. Martin Hoffman and baby daughter visited Sunday at the home of Mrs. Hoffman's parents, Mr. and Mrs. J. R. Gold-thorpe at Milo.

Mr. Ralph Nicholls of Springbank was a weekend visitor in the district.

Mr. and Mrs. Henry Carr, daughter, Shirley and son, Kenneth of Hartell were Saturday guests at the H. Douglass home.

### KIRKCALDY

Mr. O. Stewart of Portland Oregon, has been visiting at the homes of his cousins, Bob and Frank Middleton.

Mr. A. J. Maisey attended the monthly meeting of the Macleod School Division at Granum on Tuesday, August 31.

Miss M. MacKay teacher at the Kirkcaldy school, arrived home on Tuesday, after spending the summer holidays attending summer school at Edmonton, and a two weeks vacation at Winnipeg.

Mr. and Mrs. Holden and family of Turner Valley were Sunday visitors at the home of the former's sister and brother-in-law, Mr. and Mrs. W. Brinton.

Miss Margaret Fuller has returned to her home after spending a week in Calgary.

Mr. S. Galbraith from Ontario is visiting at the home of his nephew and niece, Mr. and Mrs. D. Galbraith.

Mrs. A. J. Maisey was house guest of Mrs. L. Dawson, Vulcan, for a few days last week.

Miss L. Berg of Edmonton is visiting her sister and brother-in-law, Mr. and Mrs. D. Galbraith.

Mrs. R. Robbie was a Lethbridge visitor on Thursday.

Ralph Mitchell of Claresholm, has been spending a two weeks holiday at the home of his parents, Mr. and Mrs. H. Mitchell.

Mr. Bert Maisey was a Lethbridge visitor on Tuesday.

Mrs. Calvin Hollister and Mrs. Don MacKay were guests at the August Amity Club Meeting held at the home of Mr. and Mrs. S. Cowgill in the Blusson district.

Mrs. Goshwosky was a recent visitor at Edmonton with her sister who had been spending a few days at Kirkcaldy.

### BRANT

Miss Marjory Hamilton recently spent a few days holidaying at the home of Miss Elaine Friend of Lethbridge.

Mr. and Mrs. T. Johns returned home last weekend after holidaying the past week in Calgary.

Mr. and Mrs. Gordon Fox of Calgary were in charge of the store and Post Office while they were away.

The weekly meeting of the 1st Brant-Ensign Girl Guides was held in Ensign last week. The Guides cleared \$38.73 at their Tea and Bake Sale held earlier in the month.

Mr. and Mrs. Geo. Bateman were visitors last weekend at the homes of their daughters Mrs. Bell Knapp and Mrs. Mel Friend, both of Lethbridge.

Mr. and Mrs. Ben Holden of Calgary were visitors last week at the home of their daughter, Mrs. Geo. Hamilton.

Harvesting of fall wheat and fall rye is nearly completed in this district. Spring wheat is now being sown and some being picked up. Earl Bateman delivered the first spring wheat in this district last week to the National Grain Co.

Mr. and Mrs. Gordon Brown of Seattle, Wash., are holidaying for two weeks at the home of Mr. and Mrs. Clark Fletcher. Mr. Brown spent two weeks in June with the Fletchers also, then motored to New York where he took a course in music.

Mr. H. M. Miller and Mr. Van Sickle both of Cleveland, Ohio, recently spent a few days at the home of Mr. and Mrs. Harry Green.

Mr. and Mrs. Marvin King and Mr. and Mrs. Samson all of Weston, Oregon, spent a couple of days last week visiting at the Fletcher Ranch.

School opens on Sept. 1, and Brant has a full teaching staff. Mr. Yeomans of Blackie is the Principal this year, teaching grades 10, 11 and 12. Miss Gee of Black Diamond teaches grades 7, 8, and 9. Miss Fisher of Vulcan has grades 4, 5 and 6, and Mrs. Palmer of High River teaches grades 1, 2 and 3.

Miss Boose and Miss Rhinehart both of Turner Valley recently spent a week visiting at the home of Mrs. M. E. Rhodes.

Mr. and Mrs. Oscar Jorstad returned last weekend after spending

### Australian Wheat

The current Australian wheat area is reported to be about 20 per cent below the 1947 record acreage although no official restrictions on acreage were imposed. Reasons given for the decline are that farmers found it difficult to prepare some land owing to heavy weed growth, and that prevailing high prices for wool and fat stock induced farmers to leave more cropland in pasture or to grow more fodder crops.

Farmers in eastern Canada use two and one-half times as much nitrogen fertilizers as they did before the war.

## Hospital Rules For Visitors

In the Kamloops, B.C. Sentinel each week there is a column of news, poetry and what-have-you, produced by the patients and staff of Tranquille Hospital. These "Rules for Visitors" are taken from this column.

(1) Visitors will please refrain from throwing crumpled paper money, old gold coins, loose diamonds, or emeralds on the floor. In the interest of neatness they should be placed in the bag provided.

(2) Visitors will please refrain from throwing orange peels, cigarette butts, ashes or empty bottles on the floor. These may be placed neatly under the bedclothes, thus preserving the appearance of the room. It will also make the "rest periods" more interesting for the patients.

(3) Male visitors who wish to take patients out auto-riding should see the nurse, nurse's aide or ward aide. If, after seeing one of these, he still wants to take the patient out, he should have his head examined.

(4) Female visitors who wish to take patients out auto-riding first see the orderly. If they then want to take him out instead, they should have their heads examined.

(5) Visitors who want to start political arguments should go to "Y" porch, or better still to "L" porch, Inf. II.

(6) Visitors may not bring pets, other than small bears into the porches. These little bears should be driven ahead of the visitor, as no person is allowed to walk along the corridors with a little bear behind.

(7) Visitors bringing gifts are advised that discretion should be exercised in this regard. The following are not recommended as gifts for patients: Nitro-glycerine, in bottle or jar; dynamite, loose or in boxes; blondes, loose; T.N.T., in any form; brunettes, in any form; aircraft, including jets; Buzzsaws, fast or slow; atomic bombs of crosscut saws.

(8) Visitors (and patients) are advised that the practice of attaching outboard motors to the beds and racing them up and down the corridors is no longer permitted.

(9) Visitors who cannot read, or don't believe anything they read, are requested to apply to 1776 Rue Van de Weyer, Brussels, Belgium for a permit to visit here and they are not to visit without that permit. No questions will be answered, or correspondence entered into, on account of these Rules and Regulations.

Canada's wheat crop is officially estimated at 372,000,000 bushels, 31,000,000 bushels greater than last year's crop but below the 1938-47 average by some 35,000,000 bushels. The prairie wheat crop is officially estimated at 340,000,000 bushels compared with 319,000,000 bushels last year.

### BRITAIN BUYS CANADIAN JERSEY CATTLE

"Bringing coals to Newcastle" was paralleled recently when four Canadian-bred Jersey cattle, one bull and three in-calf heifers were sold to England. The United King-

dom Ministry of Agriculture recognizes the high quality of Canadian Jersey cattle, and allocated \$224,000 for the shipment which included a consignment of Holstein cattle for the British market.

## Brief Items of Local Interest

Mrs. Les Marshman and daughters of Royalties spent the weekend at the home of the former's parents, Mr. and Mrs. Pete Bowle.

Members of the Anglican Church Sunday School are advised that classes will re-open on Sunday, Sept. 12.

Rev. Dr. Magowan and Mrs. Magowan of Coleman were recent visitors at the home of Mr. and Mrs. Jim Shortt.

Eleanor Holton of Vulcan received the silver medal award in Grade 2 Theory. It has been announced by the Scholarship Committee of the University of Alberta that the award will be presented at recitals by selected candidates in various centres of the province this fall.

Mrs. H. Weaver of Lloydminster was the recent guest of Mrs. Linder, who is at present visiting with her parents, Mr. and Mrs. H. Ulrich. Mrs. Weaver is the former Miss Avis Deal.

Owing to the pressure of the extremely busy harvest season it has been decided to cancel the September meeting of the Reid Hill W. I. All members please take note.

Mr. and Mrs. Orval Doney of Edmonton were guests over the weekend at the home of the latter's brother and sister-in-law, Mr. and Mrs. Buford Walker. While here they renewed many acquaintances, particularly among Mr. Doney's former students and Mrs. Doney's ex-music pupils.

Friends of Mr. and Mrs. Jack Denbigh are offering them congratulations on the birth of a son, Sunday, August 29th. Mrs. Denbigh was before her marriage Miss Marjorie Lommatsch.

Mrs. Bill Mason of the "Valley" spent several days in town recently, when she visited with many of her friends.

Miss Joan Reid left on Monday evening, for Calgary, where she will resume her studies at St. Mary's Girls' school, after spending the summer with her parents here. Joan had as her recent guest Miss Nadine Pascal of Lethbridge.

Dr. Mary Catherine Arney of Edmonton spent the weekend at her home here.

Recent guests at the B. A. Lloyd home were: Mrs. E. W. Reynolds of Youngstown, mother of Mr. Lloyd, and Miss Anne Kerr of Calgary, who visited with Marlene Lloyd.

Mr. and Mrs. Z. C. Deal of Calgary spent a few days in the district last week.

Mrs. W. E. Woodward of Calgary is a guest at the home of her daughter, Mrs. Merv McIntyre this week.

Mrs. F. B. Clark and son, Royce, spent a few days in Calgary the first of the week.

Weekend guests at the M. R. Morrison home were Constable and Mrs. W. A. Shields and baby daughter of Hillcrest, and Mr. and Mrs. Robert Shields of Toronto, Ontario.

Mr. and Mrs. Pikeman and family of Oregon, accompanied by Mr. Orval Kentch, were recent guests at the home of Mr. and Mrs. C. Zahnd.

Miss Eileen Shortt of Olds is spending the week at the home of her brother and sister-in-law, Mr. and Mrs. Jim Shortt.

Congratulations are extended to Mr. and Mrs. Carson McKay on the birth of a daughter, Marilyn Loreen, Wednesday, August 25th. This date is also the birthday of the baby's great-grandmother, "Grandma" Marshall, who celebrated her 85th anniversary on the 25th. Mrs. McKay is the former Miss Kay Grant of Vulcan.

Mr. Wm. Hilz was a recent Lethbridge visitor.

Mrs. D. J. Snell has returned to her home at Red Deer after a visit spent at the home of her sister, Mrs. Pete Weber.

Friends of Mrs. R. C. Collier, who has been a hospital patient in Edmonton for the past six weeks, will be glad to learn that she has returned home.

Mrs. C. E. Marsh entertained the members of her bridge club Thursday evening at a farewell get-together in honor of Mrs. H. Fykes, who left the following day to make her home at Carmangay, and Mrs. P. R. Weber, who will leave shortly to reside at Three Hills. A pleasant social period was followed by the presentation of silver souvenir spoons to the guests of honor, with their friends expressing regret at their departure and extending them best wishes for happiness in their new homes. A dainty lunch was served by the hostess.

Mr. and Mrs. George Davey of Red Deer renewed acquaintances in Vulcan this week. They were guests at the home of Mr. and Mrs. A. H. Collier.

Mrs. Walter Poxton of Coleman and her three children were recent guests at the W. Wiersma home for a week.

Miss Ruby Raaschon attended the wedding of Miss Mary Chester in Lethbridge last weekend.

About fifty persons attended the meeting in the L.O.O.F. hall Tuesday evening sponsored by Technocracy Inc.

Mr. and Mrs. F. B. Frizell of Chicago, Ill., have been visiting in the district this week at the home of Mr. and Mrs. W. J. Montgomery.

Mr. and Mrs. George Hargrave and daughter Rae of Calgary were recent visitors at the J. J. Price and D. Bell homes.

## English Journey

(Continued from Page 3)

It is hard to tear oneself away from this gem of England.

Going out on the north terrace of the Castle a glorious view is obtainable over the countryside and in the foreground are the buildings of Eton, one of England's most famous boys schools. In the town of Windsor at almost any time can be seen boys with the caps, uniforms, and toppers worn by various groups of students.

The following interesting item about Eton was clipped from a recent daily paper.

"A woman I know put her son down for Eton soon after he was born, 12 years ago.

"His name went on the general waiting list. This was a mistake. His mother should have made sure it was on a housemaster's list.

"So unless there is a failure among the examinees in September, he stands no chance of going to Eton in the autumn. Hundreds more boys are waiting for such chance vacancies.

"Fees at Eton are now £278 a year. Nevertheless, lists are full until 1960."

Only half an hour's bus ride from Windsor is Hampton Court Palace which I visited on another day. It was built by Cardinal Woolsey when he was the richest and most powerful man in England. His household numbered 500 and 280 guest rooms were always ready for guests.

Woolsey presented it to King Henry VIII who made it one of the most luxurious palaces in the kingdom.

It is now preserved by the Ministry of Works as an ancient monument and historic building. Visitors may go through the various apartments which are full of period furniture, priceless paintings, tapestries, etc.

The gardens at Hampton Court Palace are extensive and very beautiful, and the most widely known feature there, is the famous Maze probably planted in the reign of William III. The hedges which line the paths of the Maze are 6 feet high and two feet thick,

## STOP WINTER RUN-OFF

Graham-Hoeme Plow will break hard pan and allow moisture to penetrate.

Roy Witting of Lomond says, "My crop this year is as good on gravelly knolls, which never grew anything before, as on the low lying land. This is due entirely to deep fall cultivation with the Graham-Hoeme plow."

## J. T. WILLARD & SON

Vulcan

McCORMICK - DEERING SALES &amp; SERVICE

but looked to me as if they were dying. Perhaps they will be better later in the summer.

Another feature is the Tilt yard garden where tournaments were held in the days of Henry VIII. It is 7 acres in area, enclosed by high brick walls and five towers provided accommodation for the spectators.

Hampton Court Palace and grounds are on the banks of the Thames and the river steamers make frequent trips up and down the Thames carrying passengers to such places as Richmond, Kingston, London etc., at a small charge.

I went on one of these steamers to Kingston which is a busy centre with many interesting old buildings among fine modern ones. It was market day and I had a chance to see another of these outdoor markets which are a feature of many towns.

Eggs should be gathered and kept in wire baskets to allow air circulation to cool them.

### U.S. 1949 WHEAT

The United States Department of Agriculture has recommended for 1949 a wheat area of 71.5 million acres, about eight per cent less than the estimated acreage of 1948. On the basis of the 1938-47 average yield of 15 bushels per acre, the 1949 crop on this reduced acreage would total about 1.1 thousand million bushels.

### SOVIET FARM TAX

On July 14, 1948, the Soviet Government increased the tax on farm incomes of independent farmers. Members of co-operative farms (Kolkhos) are affected only to the extent they derive an income from their privilege of cultivating an acre of land and of keeping cows, pigs and poultry, as their income from Kolkhos is free of tax. The rate on the basic amount of 2,000 rubles (\$400) is increased from 8 to 11 per cent.
